

Quick Mix Pump

Water Line Dosing Unit

The Hydro Systems 684 HydroMix is a wall-mounted, push-button dispenser used to clean water lines in agricultural applications. This is a venturi technology line cleaning system has a 1:4 to 1:316 dilution range. Hits 2-3% injections that are ideal for cleaning lines in between flocks.

The movement away from anti-biotics in the meat industry has increased the need for a clean water supply. When the water lines are clean, there is less harmful bacteria to harm chickens or other livestock. Cleaning the water lines between flocks or herds is one of the easiest, most economical ways to reduce the need for antibiotics.

Details Include

- Garden hose connection
- Twist lock
- Compatible with most chemicals, including: chlorine, citric acid, hydrogen peroxide, and more
- Low maintenance and affordable
- Requires at least 3.5 GPM flow rate
- Weight: 1.85 lbs.
